PLEASE NOTE: The Global Conversation events are not webinars, your active participation for the whole duration of the events you attend is crucial to the success of these listening workshops. A commitment to active participation will in turn provide you with the best possible experience and maximise the impact of your contribution.

A series of highly participatory online events for professionals from across the global infectious disease research and development ecosystem to come together to co-create an equitable and sustainable vision for the future.

SCHEDULE OF EVENTS

Phase 1 Beginning The Conversation:

Our Global Conversation Launch Event took place on 13th June. The event was attended by over 100 stakeholders from 20 countries, representing organisations drawn from across the full extent of the R&D ecosystem, with a notable mix of global, regional, and country level representation. If you missed this event, we hope you will be able to join us for our Global Conversation Phase 2 & 3 events.
Phase 2 Exploring The Four Key Areas for Change: Identifying priorities, complex issues, and potential solutions

In these events you will have the opportunity to apply your unique perspective, knowledge and expertise to an exploration of one of the key areas that are most in need of change. You actively explore with your peers from across the ecosystem specific challenges, priorities and potential solutions. Identifying complex or controversial issues within each change area that require deeper discussion.

Global Conversation Themed Event 1 Tuesday 27th June 13:00 to 16:00 BST
Theme: Equitable and comprehensive priority setting in R&D, driving more balanced allocation of resources into research across different products and disease areas

Global Conversation Themed Event 2 Thursday 29th June 13:00 to 16:00 BST
Theme: Streamlined clinical trial and regulatory approaches, speeding up the time taken for products to be approved for use

Global Conversation Themed Event 3 Wednesday 5th July 13:00 to 16:00 BST
Theme: Strategic scale-up of geographically diverse and sustainable manufacturing capacity, supporting product supply approaches that align to global need

Global Conversation Themed Event 4 Thursday 6th July 13:00 to 16:00 BST
Theme: Centreing access and affordability while incentivising innovation, embedding these principles throughout product development to achieve improved outcomes for all
• Phase 3 Global and Regional Deeper Dives

A deeper global and regional analysis of the key challenges, controversial issues, key priorities, and solutions with the greatest potential to make the infectious disease research and development global ecosystem a more equitable and innovative.
